Opposing HB 281

Carol,

We fought long and hard to get same day registration and voting. If a voter can not, for whatever reason, get to the Clerk & Recorders Office until election day then that individual was diligent enough to come in then they deserve the right to register and vote. Like I said before, I can see and sympathize with the Clerk & Recorders, but this issue is about the individual and should not be misconstrued to become an issue about simplifying the process for the Clerk & Recorder. Either way we will have to deal with it. I for one want individuals to feel comfortable coming to the courthouse to register and vote when their schedule allows. If it happens to be on election day, then so be it.

Thanks,
Glenda

Opposition to HB 281

Carol;

This bill, HB 281 is not something that will benefit the voters of Montana, in fact it would hurt voters by placing another obstacle in front of us; one that had previously been removed. The results of the last election should clearly show that it has been working, so don't "fix" it. I hope you will vote against HB 281. We here in Glacier County are certainly against HB 281, thank you:

Michael DesRosier
